

**Testimony to the Senate Committees on Human Services and Health
Monday, February 6, 2012 at 3:00 p.m.
Conference Room 229, State Capitol**

RE: SENATE BILL NO. 2083 RELATING TO HEALTH

Chairs Chun Oakland and Green, Vice Chairs Ihara and Nishihara, and Members of the Committees:

My name is Jim Tollefson and I am the President and CEO of The Chamber of Commerce of Hawaii ("The Chamber"). The Chamber supports Senate Bill No. 2083 relating to Health.

The Chamber is the largest business organization in Hawaii, representing more than 1,100 businesses. Approximately 80% of our members are small businesses with less than 20 employees. As the "Voice of Business" in Hawaii, the organization works on behalf of its members, which employ more than 200,000 individuals, to improve the state's economic climate and to foster positive action on issues of common concern.

The Chamber commends the Legislature for playing an active role in passing legislation that appropriates money to match federal funds in the past couple of sessions. Quality health care is critical to the people and economy of Hawaii. As one of the largest private industries in Hawaii, the health care industry plays an important role in our economy, particularly through attractive, well-paying jobs and through the purchase of goods and services that contribute to our state's economy. As such, the health care industry plays a crucial role in the economic development and sustainability of our state and all of Hawaii's businesses. Also, Hawaii's healthcare system provides quality care for our families and serves to attract and retain a professional workforce, new companies, and even tourists to our state.

However, the quality healthcare that Hawaii has enjoyed for years is now in jeopardy. It is on the verge of declining because healthcare providers are no longer being paid for essential services at a level sufficient to cover annually increasing costs. The health care system must be maintained and challenges must be addressed.

Therefore, The Chamber supports improvements to the quality of our health care system. They include legislation that will improve payments to health care providers of essential health care services and increase long term care capacity and access statewide. Appropriating funds to the Department of Human Services to match the federal Medicaid disproportionate share hospital allowance allocated to the State is the first step in the right direction to ameliorate the current state of health care in Hawaii.

In light of the above, The Chamber of Commerce of Hawaii supports SB 2083. Thank you for the opportunity to provide testimony.
